## NEUROMODULATOR (AKA BOTOX®) INJECTIONS

Neuromodulator (aka Botox®) injections are a popular cosmetic treatment designed to reduce the appearance of wrinkles and fine lines by temporarily relaxing facial muscles. Neuromodulators target specific areas of concern such as forehead lines, frown lines and crow's feet, resulting in smoother, more youthful-looking skin. With minimal downtime, patients can resume daily activities with renewed confidence and a refreshed appearance. You can expect to see your full results in 2 weeks.

**Price per unit**.....\$12

## DERMAL FILLERS

Dermal fillers are like tiny cushions injected below the skin to fill wrinkles, lines and hollow areas, giving your face a smoother and more youthful appearance. They work by adding volume to areas that have lost elasticity or fullness due to aging, sun exposure, or other factors. Dermal fillers are a non-surgical option that can plump up your cheeks, lips and diminish wrinkles and folds, restoring natural contours and enhancing your overall facial features for a rejuvenated look that lasts.

**Price per syringe**.....\$700

### MINI LIP PLUMP

**½ Syringe of filler**.....\$400

## BELKYRA™

Belkyra™ is a treatment designed to reduce the appearance of a double chin by dissolving fat cells beneath the chin area. Using a series of injections, Belkyra™ targets and breaks down the fat cells, which are then naturally eliminated by the body over time. This results in a more defined jawline and a slimmer, more sculpted appearance to the chin and neck area. With Belkyra™, you can achieve a more contoured and confident profile without the need for surgery or extensive downtime.

**Single Treatment**.....\$1,200

**Package of 3**.....\$3,000

## SKINVIVE™

SKINVIVE™ is a smooth hyaluronic acid gel that is injected as microdroplets below the surface of the skin to improve skin smoothness, hydration, and glow. As you age, your skin loses hyaluronic acid (HA) which contributes to decreased moisture retention, leading to dryness, fine lines and wrinkles. HA increases your skin's natural hydrating ability to retain moisture and softness. SKINVIVE™ treatments can leave your skin looking brighter, smoother, and more youthful, giving you a radiant and refreshed complexion that lasts up to 9 months. Common treatment areas include the cheeks, neck and around the mouth.

<b>Face</b> .....	\$550
<b>Neck</b> .....	\$550
<b>Face &amp; Neck</b> .....	\$900

## HYPERHIDROSIS TREATMENT

Neuromodulator (aka Botox®) can effectively treat hyperhidrosis, which is excessive sweating, by blocking the signals from nerves that stimulate sweat glands. When injected into the affected areas, such as the underarms, palms, or feet, it temporarily interrupts these signals, reducing sweating. This results in drier, more comfortable skin for several months, providing relief from the embarrassment and discomfort caused by excessive sweating. You may be eligible for partial coverage through your extended health benefits. Re-treatment is recommended every 4-6 months to maintain results.

### Hyperhidrosis - Underarm Treatment

<b>Not insured</b> .....	\$850
<b>Insured</b> .....	\$250 Injection fee

## MICROINFUSION GOLD FACIAL

This customized cocktail of highly concentrated Hyaluronic Acid (HA), vitamins and neuromodulators (aka Botox®) will leave your skin absolutely glowing! These skin enhancing ingredients are delivered through 20 gold-plated needles deep into the dermis of the skin and work to minimize pores, decrease oil production and smooth fine lines. Platelet-Rich Fibrin (PRF) can also be added to this treatment to provide growth factors into the skin for extra collagen stimulation. This is an amazing treatment to have before an event or trip to give you smooth, glowing skin!

<b>Single treatment</b> .....	\$425
<b>Package of 3</b> .....	\$1,150

## **RADIESSE®**

Radiesse® is a unique kind of dermal filler used to address facial wrinkles, folds and volume loss. Unlike other Dermal Fillers that contain Hyaluronic Acid (HA), Radiesse® contains calcium hydroxylapatite (CaHA) microspheres that provide immediate contouring and volume while also stimulating the body's natural collagen and elastin production. Radiesse® treatments provide both immediate, natural-looking results as well as long-term improvement in the skin over time. Radiesse® injections are commonly used to smooth neck lines and restore lost volume in the cheeks and hands, providing patients with a more youthful and rejuvenated appearance that are longer-lasting compared to some other dermal fillers.

**Price per syringe**.....\$800

### **PLATELET RICH FIBRIN (PRF) HAIR LOSS TREATMENT**

Are you seeking a natural and effective solution to hair loss? Platelet-Rich Fibrin (PRF) is a revolutionary treatment that harnesses the power of your body's own platelets to stimulate hair growth and restore thinning areas. The growth factors in PRF promote the proliferation of hair follicle cells, increase blood flow to the scalp, and stimulate collagen production, creating an optimal environment for hair regrowth. This treatment is 100% natural, safe and effective. A series of 3-5 treatments are typically recommended for desired results.

**Single treatment**.....\$750  
**Package of 3**.....\$2,100

### **PLATELET RICH FIBRIN (PRF) FACIAL REJUVENATION TREATMENT**

Unleash the power of natural beauty with this innovative combination therapy - Platelet-Rich Fibrin (PRF) and Microneedling. This dynamic duo is designed to transform your complexion, offering a holistic approach to full-face rejuvenation that targets fine lines, wrinkles, uneven texture, and more. PRF and Microneedling work synergistically to amplify the rejuvenating effects on your skin. The micro-channels created by Microneedling enhance the absorption of PRF, promoting collagen production, tissue regeneration, and an overall improvement in skin texture. This dual-action approach results in a radiant, youthful glow that lasts.

**Single treatment**.....\$750  
**Package of 3**.....\$2,100

**PLATELET RICH FIBRIN (PRF)  
UNDEREYE TREATMENT**

Say goodbye to tired, puffy under-eyes and hello to a refreshed, youthful appearance with Platelet-Rich Fibrin (PRF) therapy. PRF offers a revolutionary solution to address common concerns such as dark circles, fine lines, and hollowing beneath the eyes, helping you achieve a brighter, more rejuvenated look. Platelet-Rich Fibrin is a natural treatment derived from your own blood, making it safe and compatible with your body. The growth factors and cytokines within the PRF stimulate collagen production, improve blood circulation, and promote tissue regeneration. This results in smoother skin texture, reduced dark circles, and a more youthful contour under the eyes. It is recommended to have 3 treatments for optimal results.

**Single treatment**.....\$750  
**Package of 3**..... \$2,100

**TREAT ADDITIONAL AREAS WITH PRF**

**Two Treatment Areas:**

**Single treatment**.....\$900  
**Package of 3**.....\$2,500

**Three Treatment Areas:**

**Single treatment**.....\$1,100  
**Package of 3**.....\$3,000

\*ALL PRF TREATMENTS REQUIRE US TO DRAW YOUR BLOOD,  
PLEASE STAY WELL HYDRATED FOR 24 HOURS  
LEADING UP TO YOUR APPOINTMENT.
